Mr. Bell liked to make things better...

After Alexander Graham Bell invented the telephone in 1876, he did not rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too . . . Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. There was no electronic artificial larynx, no automatic dialer and no Speakerphone. Today, these new items help us provide the best telephone service in the world. But we want to make it better. Jane Ferguson "United we stand; divided we fall!" This was the slogan of the Piperettes this year, and now at the end of the season we can truthfully say that the Piperettes have been united throughout the year.

The Piperettes traveled to

Lubbock with a team record of 26 games won and only 3 lost. Also backing the team by traveling to Lubbock to see them play was a bus load of students and many others in cars. The Piperettes rolled over the Granbury Pirates Saturday afternoon thus enabling them to play the Spearman Lynxettes for the final game in regional play Saturday night. The Piperettes were defeated by a narrow margin of 3 points but were awarded a second place trophy.

Graduating seniors on the team are Donna Compton, Glenda Hudspeth, Judy Jenkins, and Kay Hodnett. The girls have had a very successful season and we at H. H. S. think that they are the great-

Characters have been chosen for the senior play, "The Tiger House." Those receiving parts were as follows: Tommy Ferguson, Mike Rountree, Mike Smith, Scotty Brown, Jim Kincaid, Jane Ferguson, Judy Jenkins, Kay Hodnett, Donna Compton, and Sheila Stone.

This week we interviewed Bill Johnson, freshman class president., on his idea of a hero. Bill said that he believed a hero should be modest. He also said, "I think that a hero is a person that you can look up to and pattern yourself after." He said that each person has a different type of hero and that his was one

Speaker Entertains Over 250 At Annual BCD Banquet Friday

Some 260 persons were amused and entertained at the annual Board of Community Development Friday evening in the high school gymnasium.

Speaker Wayne B. (Red) Smith expressed his opinion that the greatest sound is laughter and went on to relate numerous jokes to bring out his point.

He said that being able to laugh made a better person, a better business man and a better civic worker.

In conclusion he related a personal story from his youth to express "you do not know what you can do until you

Mr. Bell liked to make things better... After Alexander Graham Bell invented the telephone in 1876, he did not

rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too . . . Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. Meeting to Explain Computer Service Set In Anson Wed.

There will be a meeting to Rule Sunday afternoon for cotton farmers in the District Court Room of the Jones County Court House in Anson at 10:00 a.m. on Wednesday, March 16, according to word this week from Jones County Agent, Kirby Clayton. The purpose of the meeting, says Clayton, will be to explain the use of The Computer Service available to Cotton Farmers through the Texas A & M University Extension

> The computer Service, says Clayton, is available to all Cotton Farmers who are interested in working out the most economical row system for planting their 1966 cotton crop. Farmers furnish the information, the local County Agent sends it to the Computer located at Texas A & M University and the farmer will have his answer within a week.

Cost of the project, says Clayton, will be \$30.00 per farmer and this fee pays for the computer time only. All interested farmers are urged to attend this meeting.

Jane Ferguson "United we stand; divided we fall!" This was the slogan of the Piperettes this year, and now at the end of the season we can truthfully say that the Piperettes have been united throughout the year.

The Piperettes traveled to Lubbock with a team record of 26 games won and only 3 lost. Also backing the team by traveling to Lubbock to see them play was a bus load of students and many others in cars. The Piperettes rolled over the Granbury Pirates Saturday afternoon thus enabling them to play the Spearman Lynxettes for the final game in regional play Saturday night. The Piperettes were defeated by a narrow margin of 3 points but were awarded a second place trophy.

called on local tax assessorties for voter qualifications.

This is in keeping with instructions of the federal court which conceivably could lengthen the 15-day period if it feels all voters who wants to register were not given sufficlent opportunity.

Carr, meanwhile, has appealed the poll tax invalidation order to the U.S. Supreme Court. However, few feel it

Reversing earlier instructions, the attorney general said Texans over 60 years of age in cities of 10,000 or more who failed to get exemption certificates before January 31 still can sign up free.

Reliable estimates of the number of new voters who will qualify by March 17 have been raised to around 500,000. Cigarette Imports Tightened - State and federal inspectors are clamping down
